

The Event Kit.

Everything you need to get every guest on the camera — table signs in three styles and guest instruction cards. Print it, write in your event code, and put it where people will see it.

1

Create your event

Reela gives you a 6-letter join code (like SUN-SET) and a QR code the moment your event exists.

2

Print & fill in

Pick a sign style, write your event name and code in the blanks, and tape your QR from the app into the frame.

3

Place it well

The entrance, the bar, and every table. Instruction cards fit place settings and favor bags.

What's inside

- Table sign — Minimal (clean type on white, fits any venue)
- Table sign — Classic (serif elegance for weddings and formal dinners)
- Table sign — Botanical (soft green for garden parties)
- Guest instruction cards — four per sheet, ready to cut

ONE CAMERA · ONE BIG REVEAL

Smile. You're the photographer.
